

The Musical Keyboard

The musical keyboard consists of black and white keys. Being able to visualize these keys will help you in many ways along your musical journey.

Each key can be named by a letter of the musical alphabet.

When traveling “up” (to the right) the black keys will have a sharp (\sharp) next to its letter name.

When traveling “down” (to the left) the black keys will have a flat (\flat) next to its letter name.
